Categories: Yellow Category

Lynn,

We have no video stuff down here, so we'll do the adobe connect. I'll probably have figures from the report to show and perhaps some cartoons and I'll see if Zoltan will have any visual aides as well.

I'm out for an anniversary Oct 1&2, then I'm in Reston the entire week of Oct 6th. I will be back in the office the following week.

We can certainly do an adobe connect. If you have access to video equipment in your office that would be even better as a way to see each other and talk. If you do not have access to video equipment we will only use Adobe Connect.

Also, be thinking about the next step of sitting down with Region 7 and our HQ folks to talk about addressing the issues raised in your report. I think when we talked with Karl and Mike the dates of 9/29 or 9/30 were tossed out (knowing you are at a conference starting either the 30th or the 1st) Or what about early the following week – October 6 for a meeting?

Thank you,

Lynn M. Slugantz

Lynn,

I'll check with Zoltan. I think we used you adobe connect last time and that worked pretty well. So lets plan on doing that again.

Calendar Hold for Call with USGS John Schumacher and Zoltan Szaro, with R7 and Dave Bartenfelder, OSWER – to discuss findings that will be in USGS' future report to EPA.

If you have access to video conferencing equipment that would be ideal, otherwise we will do adobe connect.
